Highlights

Trim-n-Flow technology

Our new, innovative comb is designed to prevent hair from getting stuck in the clipper. Cut your hair from start to finish without interruption.

DualCut Technology

Power through any type of hair with our advanced DualCut technology: an innovative two-sided cutting element that cuts hair twice as fast as one-sided blades.

Stainless steel blades

Self-sharpening stainless steel blades are incredibly long-lasting. Even after 5 years, they cut just like they did on day one.

13 lock-in length settings

Simply select and lock in the length you want. The adjustable comb has 12 lock-in length settings from 1 mm to 23 mm, with precisely 2 mm between each length. Remove the comb entirely for a close 0.5 mm trim.

Efficient corded use

The 1.8 m long power cord provides constant power.

Comfortable grip

The HAIRCLIPPER Series 3000 is designed to be comfortable to use, convenient to handle and easy to operate. The special texture and grip allow you to easily move the clipper and cut all around your head.

Extra adjustable beard comb

Whether you have a beard or want the perfect stubble, just attach the adjustable beard comb and select one of 12 lock-in settings, from 1 to 23 mm. There are precisely 2 mm between each length. To get shorter stubble, remove the comb entirely for a close 0.5 mm trim.

Easy to clean

Simply click to release the detachable head to quickly release and clean the blades.
