#### Easy to use

- 45 minutes of cordless use after an 8-hour charge
- Ergonomic handle for more comfort and control
- Quick release blades for easy cleaning

#### Built to last

- Zero maintenance, no oil needed
- 2 year guarantee

# Highlights

## DuraPower technology

The DuraPower technology lowers the friction on the blades, which protects the motor and the battery from being overloaded. This way, the battery life of your clipper is increased.

## Self-sharpening metal blades

Self-sharpening metal blades are incredibly long-lasting. Even after 5 years, they cut just like they did on day one.

## 13 lock-in length settings

Simply select and lock in the length you want. The adjustable comb has 12 lock-in length settings from 1 mm to 23 mm, with precisely 2 mm between each length. Remove the comb entirely for a close 0.5 mm trim.

## Extra adjustable beard comb

Whether you have a beard or want the perfect stubble, just attach the adjustable beard comb and select one of 12 lock-in settings, from 1 to 23 mm. There are precisely 2 mm between each length. To get shorter stubble, remove the comb entirely for a close 0.5 mm trim.

## Cordless and corded use

Use the clipper without the power cord for maximum power and freedom. Its powerful NiMH battery provides up to 45 minutes of cordless power after 8 hours of charging.

## Comfortable grip

The HAIRCLIPPER Series 3000 is designed to be comfortable to use, convenient to handle and easy to operate. The special texture and grip allow you to easily move the clipper and cut all around your head.

## Easy to clean

Simply click to release the detachable head to quickly release and clean the blades.

## Zero maintenance

No oil needed, for easy maintenance and to save you time.

## 2-year worldwide guarantee

All of our grooming products are built to last. They come with a 2 year worldwide guarantee and worldwide voltage compatibility.

# Specifications
