

Ceramic heater

BXSH1500E

Product Code: ES9460040B

EAN Code: 8432406460041

Title:

Black + Decker compact 1500W ceramic heater with PTC heating, adjustable power, 2 heat settings, adjustable electronic thermostat, tip over safety system, matte black.

Description:

1500W compact heater with two heat settings, 750W and 1500W. It also includes a ventilation setting that will circulate the air without heating it so that you can use it in both summer and winter.

The adjustable thermostat of the ceramic heater BXSH1500E allows you to set the desired temperature of the room. The heater will activate until it reaches the desired temperature when it then automatically deactivates. It turns on and off as many times necessary to keep the temperature stable.

The BXSH1500E ceramic heater features a PTC heating system that, thanks to its ultra-fast lime ceramic lacquer, offers instantaneous and even heat around the room. Get all the heat on the spot, no waiting.

Use it safely: It includes an automatic shutdown function in case of overheating and a safety switch on its base that will turn off the heater in case of tipping over.

The BXSH1500E ceramic heater is perfect for heating rooms of up to 15m², plus you can take it wherever you want thanks to its compact size and light weight. Its matte black and dark grey design make it a perfect ceramic heater to place in any room, adapting to all types of décor. Elegant and discreet.

Main Selling Points:

- **TWO HEAT SETTINGS AND FAN SETTING:** The Black + Decker heater has two heat settings, 750W and 1500W so you can choose the one that best suits your needs. In addition, you can also activate the ventilation function, which will circulate the air without heating it, so that you can also use it in summer or whenever you need to ventilate a room.
- **PTC HEATING SYSTEM:** Ultra-fast heating thanks to its ceramic plates. Heat on the spot, no waiting.
- **ADJUSTABLE THERMOSTAT:** Select a temperature and the heater will activate until that temperature is reached. It will then automatically turn on and off to keep the selected temperature stable.
- **COMPACT:** Its dimensions 21cm high, 21cm wide and 10cm deep helps you to place it in any corner without blocking the passage. In addition, its discreet and elegant design in matte black fits with any type of decoration or room.
- **TOTAL SAFETY:** Includes an automatic overheating function and a safety shutdown button on its base in case of it tipping over.

Product Uses:

- Heats a room up to 15m².
