BXKE2201E

Product code: ES9580040B

EAN Code: 8432406580046

Title:

Black+Decker – BXKE2201E. Kettle. Water boiler. 2200w. 1.7L. 360° rotating base, suitable for left-handed people. Ergonomic handle. Automatic switch off. Visible water level. Release button. Pilot light. Stainless steel fingerprint-proof finish.

Description:

Put the water on to boil, choose the type of infusion you fancy and relax! Enjoy maximum comfort with the BXKE2201E kettle. Thanks to the high power of 2200W offered by the Black+Decker kettle, you will get boiled water in an instant. In addition, the jug of the kettle rotates 360°, guaranteeing a simple use for both left and right-handed people. It has a 1.7L capacity so you can make the maximum number of infusions possible.

Its hidden heating element and removable filter enable it to be cleaned easily and conveniently. It contains a water window that clearly shows the level of water at all times. It incorporates an automatic switch off system that will switch the kettle off once it boils to guarantee a practical and safe working. In addition, it has a pilot light so you know at all times whether it is switched on or off.

The BXKE2201E kettle is designed to facilitate your comfort, thanks to its ergonomic handle that will fully adapt to your hand. It also includes a lid opening button that will allow you to use it with just one hand.

The elegance of its finish is ideal for any type of kitchen and thanks to its fingerprint-free design, the B+D kettle will always shine perfectly.

Main selling points:

- **POWERFUL.** With 2200W of power which ensures the water reaches boiling point in the shortest time. The capacity of the jug is 1.7 litres.
- **ROTATING BASE, SUITABLE FOR LEFT-HANDED PEOPLE.** The jug rotates 360° around the base to provide maximum comfort and ease of use with just one hand. Suitable for right and left-handed people. Kettle is totally separate from the base, easy to use.
- **AUTOMATIC SWITCH OFF.** The kettle automatically switches off when the water reaches boiling point. Safety system.
- **PRACTICAL AND ELEGANT DESIGN.** Hidden heating element and removable filter which enable comfortable and simple cleaning. Includes two graduated water displays and button to open the lid. Ergonomic handle.
- **STAINLESS STEEL FINISH** Practical and elegant finishes that will combine perfectly in your kitchen and will extend the durability and resistance of the kettle.

Uses:

- Make teas, infusions and coffee in an instant.
- Heat water to its boiling point to cook quickly
