- LatteDuo: Enjoy double servings of any recipe at one touch
- Customize up to 5 coffee settings with the CoffeeEqualizer™
- Optimally-balanced temperature and aroma via Aroma Extract
- ExtraShot setting to boost your drink's intensity
- Personalize up to 6 profiles and save your favorites
- LattePerfetto for dense milk foam with a fine texture
- Large sealed bean container to keep your beans fresh

*99.9999% of microorganisms based on lab tests.

*** Based on 8 filters replacement as indicated by the machine. Actual number of cups depends on selected coffee varieties, rinsing and cleaning patterns.

Highlights

16 delicious beverages

Explore the world of coffee, from familiar recipes such as Espresso and Cappuccino to specialty coffee drinks like Italian Espresso Macchiato.

CoffeeMaestro

Personalize your coffee experience by selecting a desired taste profile (Delicato, Intenso, Forte) for your beverage. The coffeemaker automatically adjusts the brewing settings like strength, coffee volume and pre-wetting time, to serve you the right taste.

Automatic Cleaning* HygieSteam

Our innovative automatic cleaning system, HygieSteam, removes 99.9% of microorganisms on milk carafe parts*.

100% Ceramic Grinders

Our grinders are made of high-tech ceramic: they're exceptionally hard and precise. Fresh beans are gently ground, without risk of overheating. All of the best flavors and aroma are extracted, for 20,000 cups or more of delectable coffee. Easily adjust the grinder with 12 settings.

AquaClean Water Filter

AquaClean is our patented water filter, designed to improve the quality of your coffee by purifying water. It also prevents scale buildup in the water circuit of your coffee machine. Make up to 5000** cups without descaling by replacing the filter regularly.

LatteDuo

Prepare and enjoy single or double servings of any coffee recipe with one touch, including Cappuccino or Latte Macchiato.

CoffeeEqualizer™

Get interactive guidance for unlimited personalization, with our CoffeeEqualizer™. Craft your coffee the way you prefer by customizing the strength, coffee and milk volume, temperature, milk foam density and add an ExtraShot.

Aroma Extract

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction. It does this by keeping the water temperature between 90 and 98°C, while regulating the water flow rate, so you can enjoy delicious coffees.

ExtraShot function

Boost your drink's intensity with the ExtraShot setting via the CoffeeEqualizer™ or the Forte taste profile on the CoffeeMaestro menu. Two ways to add powerful flavor without the bitterness

Specifications

Service

2-year worldwide guarantee: Yes

Technical specifications

Water tank: Frontal access
Coffee bean capacity: 300 g
Max. cup height: 150 mm
Filter compatibility: AquaClean
Waste container: Frontal access
Type of boiler: Stainless steel boiler
Capacity milk carafe: 0.6 L
Pump pressure: 15 bar
Frequency: 50 Hz
Capacity waste container: 12 servings
Color(s): Metal Front
Type of carafe: Milk Container Plastic Lid
Capacity water tank: 1.8 L
Voltage: 230 V
