## One-up your brushing

The new electric One cleans your teeth better for a brighter, whiter smile. Wherever you go, this One goes with you. Its sleek, lightweight design and portable case makes it the perfect brush for you. Which colour is your One?

### **Better brushing**

- Good vibrations

### **Hassle-free**

- One charge, one month of brushing
- Routine made easy with brushing guidance

### **Multiple colours**

- A colour for every style

## Highlights

### Good vibrations

Think of the One like a manual toothbrush that works harder and faster. 13,000 microvibrations per minute and contoured bristles gently clean your teeth for a whiter, brighter smile.

### Routine made easy

Sometimes, we all need a little guidance. The One buzzes every 30 seconds encouraging you to move on to the next part of your mouth. A longer buzz at 2 minutes lets you know when the job is done.

### A colour for every style

Choose the colour to match your style. You can mix and match the brush head with the handle and create your own colour combination.

### One charge, one month of brushing

Charging your One is easy. Just pop off the end cap, plug in your USB-A cable and wait until the light indicator stops flashing. With a single charge, you can brush for 30 days. That's one month of whiter, brighter smiling.
