

Philips RO Tap Water Station AUT8960/10 (Nov 25')

Tankless Fast-Flow filtration 1.6 L/min & Remineralizer

Reverse Osmosis PLUS Aquaporin enhanced filtration
 Tested* to reduce 110 contaminants, including chemicals (PFOA >99.8%), pharmaceuticals (Ibuprofen >99%), lead, chloride (>99.9%), microplastics (>99.99)

Remineralizer for better-tasting and healthier water
 Infuses minerals, balances pH, and enhances taste with premium coconut shell activated carbon in a 5-in-1 filter cartridge

Fast-Flow instant filtration
 1.6 l/min water dispensing flow based on 600 GPD RO membrane

Ultra small footprint (11cm wide)
 No purification tank needed thanks to Fast-Flow RO technology

Flexible placement
 Vertical or horizontal placement, it fits even under-plinth of kitchen to save space

FreshPro AutoFlush
 System automatically flushes the RO membrane with purified water 10 minutes after use and every 24 hours if not in use, preventing virus breeding and reducing TDS-creep caused by each initial filtration

70%

Unmatched 70% recovery rate
 Produces 7 L of pure water from every 10 L input

Easy replacement Quick-Twist filter AUT854R600 RO and AUT619 (5-1) 3 (RO) and 1 (5-1) years expected lifetime

Stainless Steel Faucet (swivel)
 Leadfree stainless steel faucet

2-year warranty
 from date of purchase

* Tested by international certification and testing agency under laboratory conditions.
