# Highlights

## Powerful cooling range

Experience powerful, quiet cooling with 3 speeds, rotation, and the convenience of a timer. Built for quality and stability, it delivers lasting comfort day after day.

## Ample airflow stream

With a cooling capacity of 3330 m<sup>3</sup>/h, this fan quickly circulates air to eliminate stagnation, ensuring fresh, comfortable airflow that reaches every corner of your space.

## Quiet cooling

Designed for peaceful environments, this fan operates at a gentle 38dB—equivalent to the sound of light rainfall. Perfect for work, reading, or sleep, it provides a calm and undisturbed atmosphere.

## Adjustable speed settings

Customize your comfort with three adjustable speed settings—ranging from a gentle breeze to powerful airflow. Effortlessly tailor the cooling to suit your needs with the simple touch of a button.

## Convenient Timer

The built-in timer function allows you to set the fan to turn off automatically, helping you save energy and ensuring comfort without the need for manual adjustments.

## Rotation and tilting

Ensure optimal air circulation with 80° rotation and a 30° tilting head, allowing the breeze to evenly distribute throughout your space.

## Height Adjustable

Easily adjust the fan height between 112 cm and 131 cm to direct airflow precisely where needed, whether you're sitting, standing, or lying down.

## Build to last

With over 80 years of air care expertise, Philips conducts 110+ rigorous quality tests to ensure durability and high performance, season after season.

## XL Base

The extra-large base provides added stability, minimizing wobbling even at higher speeds for a safer and more reliable cooling experience.
