- Enriched flavor with our hard-wearing ceramic grinder
- Silky-smooth froth for your cappuccinos or hot chocolates
- Up to 5000 cups* without descaling thanks to Aquaclean
- Find inspiration and support on our app

Highlights

5 hot & refreshing drinks

At one touch, enjoy popular coffee recipes, from classic espresso, regular black coffee, espresso lungo to iced coffee, with the perfect crema, aroma and temperature. Hot water for tea is also available. Our unique brewing system perfectly extracts the beans flavors with a slower flow rate and at lower temperature. Add ice cubes to your drink and enjoy a delicious iced-coffee, with no compromise on coffee intensity.

100% ceramic grinders

Bring out the full flavor of your coffee with our hard-wearing ceramic grinder. The durable ceramic grinder can be adjusted in 12 steps, from fine to coarse grindings.

Effortless, inspired coffee with HomeID App

Learn the ins and outs of your machine and discover new cafe-style coffee recipes on our HomeID app.

Easy coffee selection and customization

Easily select your favorite drinks thanks to the modern touch screen display with colored icons. Adjust your coffee your way with the My Coffee Choice function: choose your preferred coffee strength, length, and milk froth level, just to your taste.

Milk frothing made easy

Easily prepare your favorite milk-based coffees in only 2 steps. The classic milk frother prepares thick-frothed milk to which you can add espresso and enjoy a delicious cappuccino. You can even prepare hot milk for your hot chocolates.

Quiet coffee making with SilentBrew

Our patented SilentBrew technology reduces machine sounds so you can enjoy the experience of brewing aromatic coffee more. Using sound shielding and quiet grinding, our machines make 40% less noise than earlier models and come with a Quiet Mark certification.

AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups*, while enjoying clear and purified water.

Specifications

Safety feature

Automatic shut-off timer: Yes
Safety certification: Yes

Technical Specifications

Energy Efficiency rating: Class A
Power: 1500 W
Voltage: 230 V
Frequency: 50 Hz
Number in pack: 1

Weight and Dimensions

Product Length: 371mm
Product Width: 246 mm
Product Height: 433mm
Product Weight: 7,5kg
Package Length: 491,5mm
Package Width: 287,5mm
Package Height: 487mm
Package Weight: 10-12,3kg

Country of Origin

Produced In: Romania

Durability

User Manual: > 75% recycled paper
Packaging: > 95% recycled materials
