Product Benefits & Features

AI CoolAssist® – smart cooling that adapts to your routine

AI CoolAssist® intuitively adapts fridge settings to your daily routine - whether adding groceries or leaving for vacation. AI CoolAssist® learns your habits to optimize cooling temperature, and, during low-use times, can save up to 15% energy.*

TwinTech® No Frost - food kept hydrated and juicy

TwinTech® No Frost has an advanced dual cooling system for the fridge and freezer. This technology ensures the freezer stays frost-free and the fridge humidity optimal, preventing the food from drying out.

*Internal test on representative models at 25°C, comparing AI CoolAssist enabled with Auto Vacation Mode after 3 days of inactivity against factory default settings. Actual savings may vary by model, ambient temperature, usage and operating conditions.
